

SB Packaging

Brief information

SB Packaging

Structured paper procurement

SB Packaging complements existing procurement structures and provides access to production capacities, market transparency and stable supply.

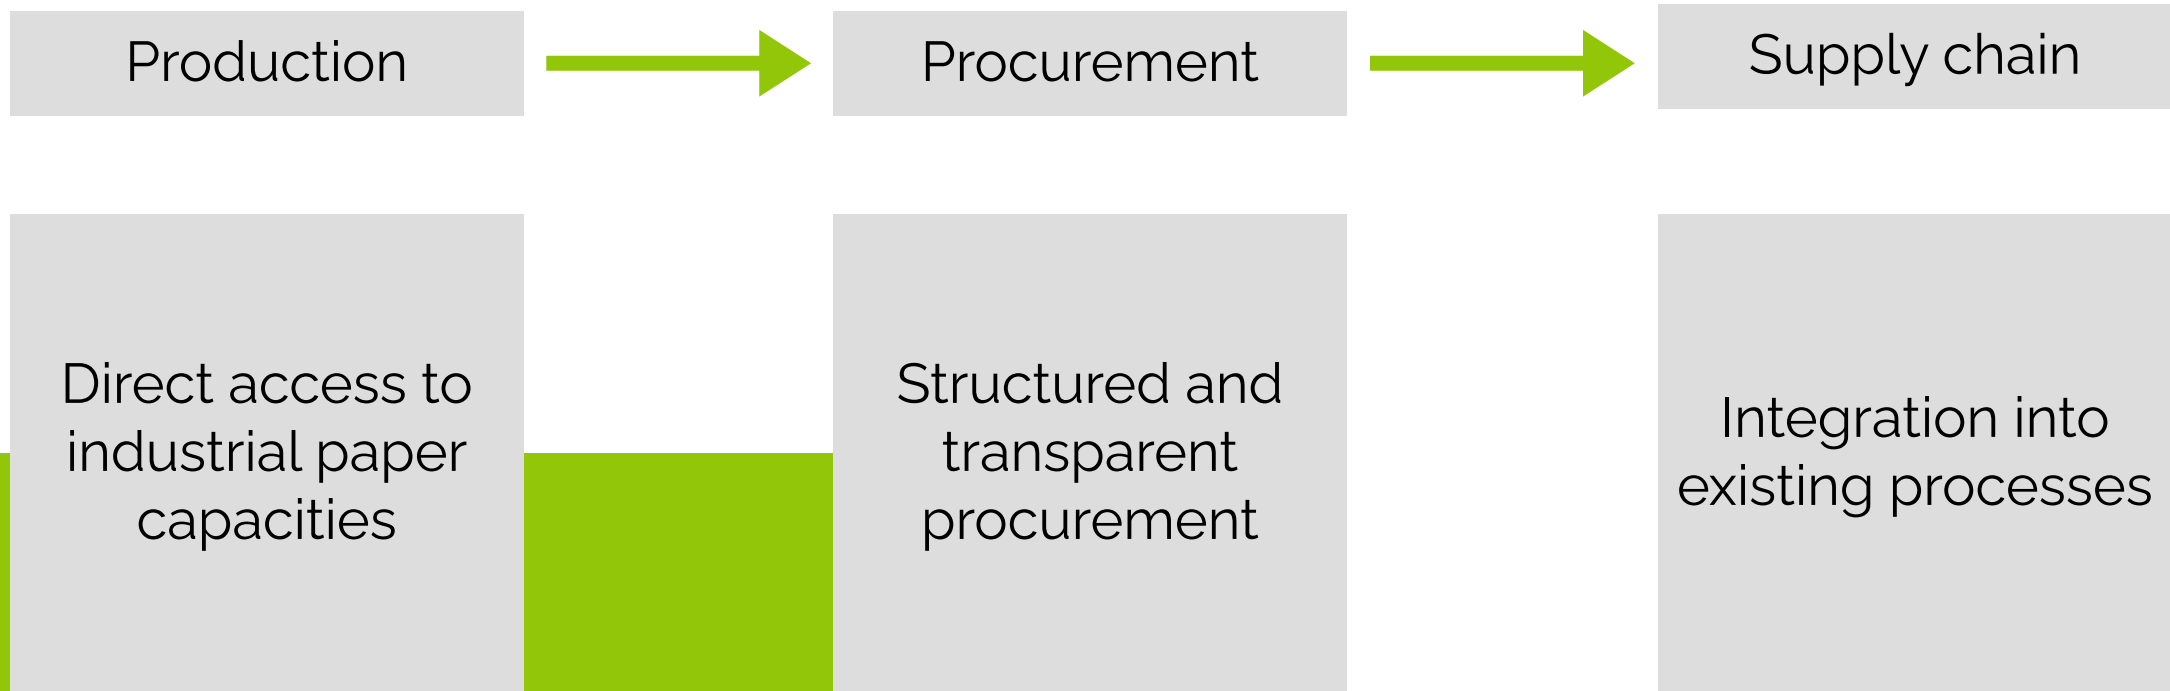

SB Packaging

SB Packaging combines paper production, procurement and packaging supply chains.

Existing systems are being selectively expanded.

Stability. Transparency. Control.

Security of supply

Access to additional
capacity

Cost control

Greater transparency
and predictability

Scalability

Flexible procurement
across multiple
markets

SB Packaging expands existing procurement structures and creates a stable supply in a complex market.
